Is our cookie dough safe to eat raw?

ABSOLUTELY, thats right, all of our ingredients are safe to eat unbaked. We use heat treated flour. Most of our flavors do not contain egg, but for the ones that do, we use a safe to eat pasteurized egg product.

Does your cookie dough contain nuts?

Some of our cookie dough flavors do contain nuts, but we have a lot that do not. For those who have a severe allergy, be aware we manufacture in a facility that processes peanuts and tree nuts.

Do you offer a Celiac Friendly Cookie Dough?

We offer a gluten free cookie dough option, but please note that the gluten free dough is not manufactured in a gluten free facility.

How long is our dough good for?

You can refrigerate our dough for up to 3 weeks. With the exception of Chocolate Chip cookie dough, our doughs can also be frozen for up to 9 months. Chocolate Chip can be frozen for up to 3 months.
